

# Departments

## School of Medicine

<b>Medical Course</b>	Basic Medicine <span style="float: right;">10 Departments</span>	
	Anatomy Functional Anatomy and Neuroscience Microscopic Anatomy and Cell Biology	Pathology Tumor Pathology Immunopathology
	Physiology Autonomous Function Sensory Physiology	Microbiology and Immunochemistry Social Medicine Hygiene and Health Science Public Health and Epidemiology
	Biochemistry Cellular Signal Transduction Integrated Life Science	Parasitology Legal Medicine
	Pharmacology	Department of Advanced Medical Science
	Clinical Medicine <span style="float: right;">18 Departments</span>	
	Internal Medicine Division of Cardiology, Nephrology, Pulmonology and Neurology Division of Metabolism and Biosystemic Science Division of Gastroenterology and Hematology/Oncology •Gastroenterology and Endoscopy •Cancer Genomics and Precision Medicine	Dermatology Renal and Urologic Surgery Ophthalmology Otorhinolaryngology - Head and Neck Surgery Obstetrics and Gynecology Radiology Anesthesiology and Critical Care Medicine
	Psychiatry	Neurosurgery
	Pediatrics	Laboratory Medicine Oral and Maxillo-Facial Surgery Emergency Medicine Regional Medicine and Education Clinical Oncology for Local Community Cooperation
	Surgery Division of Vascular, Respiratory and Surgical Oncology Division of Cardiovascular Surgery Division of Hepato-Biliary-Pancreatic and Transplant Surgery Division of Gastrointestinal Surgery	
28 Departments	Orthopaedic Surgery	

<b>Nursing Course</b>	Nursing Science
1 Department	
<b>General Education</b>	History and Philosophy Psychology Sociology Mathematics Mathematical Information Science Physics Chemistry Biology Life Science English German
11 Specialized Divisions	
<b>Funded Department</b>	Ocular Tissue Engineering Artificial Joints Medicine and Engineering Combined Research Institute Cardiovascular Regeneration and Innovation Innovative Head and Neck Cancer Research and Treatment Community Medicine Management Department of Transplantation Technology and Therapeutic Development Division of Diabetes and Lifestyle Diseases Prevention and Therapeutics
8 Departments	
<b>Joint Research Department</b>	Joint Research Department of Telemedicine and Telecare Department of Gastroenterology and Advanced Medical Science
2 Departments	

## Graduate School

Medical Related Research	Course	Major	Course	Division
	Ph.D. Course	Medicine	Research Course	Oncology/Hematology, Social/Environmental Medicine, Immunology/Infectious Diseases, Esthematology/Musculoskeletal Medicine, Endocrinology/Metabolism, Neurology/Psychiatry, Cardiology/Pneumology, Gastroenterology, Molecular Physiology/Pharmacology, Reproductive/Developmental/Regenerative Medicine
			Clinical Research Course	Oncology/Hematology, Social/Environmental Medicine, Immunology/Infectious Diseases, Esthematology/Musculoskeletal Medicine, Endocrinology/Metabolism, Neurology/Psychiatry, Cardiology/Pneumology, Gastroenterology, Molecular Physiology/Pharmacology, Reproductive/Developmental/Regenerative Medicine
	Master's Course	Nursing	Master's Thesis Course	Nursing Administration, Basic Nursing Science, Study of Defense Mechanism, Nursing Education, Psychiatric and Mental Health Nursing, Public Health Nursing, Health Education and Promotion, Child-family Nursing, Maternal Nursing and Midwifery, Gerontological Nursing, Adult Nursing, Fundamental Nursing, Home Health Care Nursing
			Advanced Practice Course	Oncology Nursing, Gerontological Nursing
