Asahikawa Medical University Hospital

Asahikawa Medical University Hospital

Hospital Philosophy

Recognizing our mission as a university affiliated hospital, we provide advanced medical care with a strong focus on the human rights and dignity of the sick; we foster health care professionals who will be able to lead the next generation, contribute to community health, and be active internationally.

.....

Objectives

- 1. To honor human rights and dignity and provide medical care for and develop rapport with the patient.
- 2. To provide anthropocentric medical care, harmonizing holistic medical care with advanced techniques.
- 3. To contribute to the betterment of community health and welfare, playing active roles in prevention and health support.
- 4. To foster medical professionals with strict medical ethics and rich global awareness.
- 5. To create future medical care and disseminate the results at home and abroad.

Institutional Certified Evaluation and Accreditation

Asahikawa Medical University Hospital is accredited as follows:

Evaluation of Hospital Functions (Japan Council for Quality Health Care)

Asahikawa Medical University Hospital was evaluated by third-party assessors according to prescribed criteria and certified as appropriately serving fundamental functions to provide medical treatments systematically.

Accreditation Baby Friendly Hospital

In August 2005, our hospital was accredited as a Baby Friendly Hospital (BFH) implementing The Ten Steps to Successful Breastfeeding (developed by WHO and UNICEF). Its accreditation was the 3rd in Hokkaido and the 1st among national university hospitals in Japan. It was re-accredited in July 2018.
