

○Loan for Students in the Medical Course

The loan system for students in the Medical Course was created in April 2011 in order to provide financial support and help them concentrate on their studies without the burden of financial stress. If they belong to our hospital as postgraduate clinical trainees or remain in service after postgraduate clinical training, the amount of the loan reimbursement is reduced based on the length of the period of affiliation (counted by month) at our hospital.

○Loan for Students in the Nursing Course

The loan system for students in the Nursing Course was created in April 2008 in order to provide financial support and help them concentrate on their studies without the burden of financial stress. If they are employed at our hospital as full-time nursing staff immediately after graduation from our university, the amount reimbursed is reduced based on the length of the period of affiliation (counted by month) at our hospital.
