

The 15th International Conference on Na,K-ATPase and Related Transport ATPases

September 24-30, 2017

Program

1. Na,K-ATPase and H,K-ATPase 1 (structure-function relationship)
2. Na,K-ATPase and H,K-ATPase 2 (physiology and diseases)
3. Ca-ATPase and other P2-ATPases
4. Pump regulators
5. P4-ATPase (flippase) - structure, function, cell biology and disease
6. Other P-type ATPases including P1, P5-ATPases
7. Molecular simulations - towards quantitative understanding
8. Emerging technologies

**Venue: Lake Biwa Otsu Prince Hotel
(Otsu City, Shiga, Japan)**

Organizers:

Chikashi Toyoshima (The Univ. of Tokyo)

Haruo Ogawa (The Univ. of Tokyo)

Hiroshi Suzuki (Asahikawa Med. Univ.)
